

# Hemisphere Specific Auditory Stimulation

A Chance To Grow/MLRC 612-706-5549

## Hemisphere Specific Auditory Stimulation

**Enhancement of Auditory Processing Skills through Hemisphere Specific Auditory Stimulation (HSAS)**

**Targeted professionals:**

Speech/Language Pathologists, Audiologists, Special Education Teachers, Psychologists and Parents. The participants will be trained to implement the *Hemisphere Specific Auditory Stimulation* program at their site upon completion of the seminar.

**Course Objectives:**

The HSAS seminar training is designed to introduce participants to an auditory stimulation program that will enhance auditory processing skills in children who may demonstrate difficulty in attending, sound discrimination, reading decoding, understanding and retaining verbal information as well as social interactions.

Upon completion of the seminar, participants will be able to:

- Discuss reading disabilities and how they relate to auditory processing skills
- Address neuro-physiological development required for academic, social/emotional and behavioral functions.
- Review therapeutic strategies for auditory processing enhancement
- Understand HSAS philosophy, implementation and criteria
