Assessments
November 13 – Word
Level Interventions
November 14 –
Comprehension
Interventions*

MATCHING INTERVENTIONS TO ASSESSMENTS

The information presented will assist you in developing a Response to Intervention model within your own school district. Workshop topics:

- * Overview of the Reading Intervention system developed by Fairmont School District's Literacy Team (Fairmont, MN)
- * Overview of results achieved
- * Overview of assessment plan
- * Time for districts to determine their assessment needs, assessment plan, and learn to match interventions to assessments.

Participants should bring all assessments currently used in your plan. Literacy leadership team attendance is encouraged.

WORD INTERVENTION STRATEGIES

The information presented will provide you with strategies to help students do the following:

- * gain a strong sight word base
- * develop and expand vocabulary
- * establish a system for content area vocabulary acquisition
- * decode words
- * improve and strengthen phonemic processing

Participants will leave with a wealth of resources to facilitate intervention in a variety of word level deficits.

COMPREHENSION INTERVENTION STRATEGIES

Comprehension issues lead to learning issues. All students must learn to comprehend to be successful in school.

Participants will learn how to develop these underlying mental processes necessary for comprehension to develop:

- * synthesis of visualization
- * metacognition
- * logical reasoning

Teaching strategies addressed:

- * reciprocal teaching
- * summarizing
- * content area strategies
